

Specification and Data Sheet

PIPE STRAPS

Manufacturer: MIRO Industries, Inc., 2700 South 900 West, Salt Lake City, Utah 84119

Phone (800) 768-6978

Fax (800) 440-7958

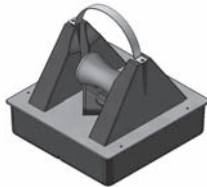

Product Performance: MIRO Industries pipe straps are designed to attach to MIRO Industries pipe supports so as to not allow pipe to come out of or be displaced from the pipestand. All pipe straps will ship separately and need to be installed on site. It is important to note that pipe straps should not be rigidly attached to the actual pipe that is placed in the pipestand, thus allowing for expansion and contraction to occur within the pipestand.

1.5 Pipe Strap

Strap material is a .040 aluminum 5052 allow temper H32
ASTM B-209-01

3-R-2 Pipe Strap

Strap material is a .040 aluminum 5052 allow temper H32
ASTM B-209-01

3-R-4 Pipe Strap

Strap material is a .040 aluminum 5052 allow temper H32
ASTM B-209-01

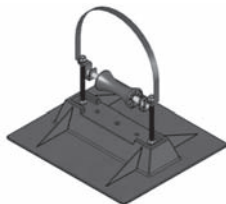

Included with 1.5, 3-R-2 and 3-R-4 pipe straps are #8 stainless steel screws that are to be used to mount through pre-punched holds in the strap down into the polycarbonate pipe supports. This can be done by using a phillips head screwdriver.

4-RAH Pipe Strap

Strap material is a .125 aluminum 5052 allow temper H32
ASTM B-209-01

6-RAH Pipe Strap

Strap material is a .125 aluminum 5052 allow temper H32
ASTM B-209-01

4-RAH pipe straps can also be used for the 4-R by mounting a 3/8" bolt down through the pre-punched holes in the strap into the 4-R base. 6-RAH pipe straps can also be used for 5-RAH pipe supports and 5-R pipe supports. A 1/2" bolt can be used for the 5-R pipe strap that can be mounted through the pre-punched holes through the strapping into the 5-R base.
