

Product Data Sheet

SUPPORT PADS

1. **Product Name:** SUPPORT PAD, 12x12, 7½ x10, 9x15¼ 16x18 and 19x23.
2. **Manufacturer:** MIRO INDUSTRIES, INC.
844 South 430 West, Suite 100,
Heber City, Utah 84032
Phone: (800) 768-6978
Fax: (800) 440-7958
3. **Product Description:** MIRO Industries Support Pads are made of 100% heat-molded recycled rubber. Support Pads are designed to provide an additional barrier between the roof membrane and the rooftop equipment support. The support pads vary in size to accommodate MIRO's base and support options. MIRO Industries suggests the use of support pads under every MIRO Industries base. Installation requires that each base be properly placed evenly over each support pad.

*Note: The 12x12 support pad is a general fit pad without side lips or venting holes.
4. **Compatibility:** MIRO Support Pads are recommended and are compatible for use with most current types of decking and commonly used built-up and single-ply roof membranes.
5. **Installation:** Clean and prep the roof surface ensuring that the support pad will not be placed on any foreign debris. For built up roofs, remove all loose aggregate from an area 2 inches larger in width and length than the base or support pad and follow the installation directions outlined above.
6. **Maintenance:** Normal maintenance is not required. Semi-annual inspection is required to check pad position, pipe alignment, proper weight distribution, and improper installation, which may cause roof damage or failure.
7. **Availability:** Support Pads are marketed throughout the United States through representatives and distributors.
8. **Technical Services:** Please call MIRO INDUSTRIES, INC: (800) 768-6978 or visit our website www.miroind.com for technical information and for graphic and CAD drawing downloads.
