

DATA CENTER SOLUTIONS

Why contractors and specifiers love working with MIRO:

- ✓ Data Center design expertise*
- ✓ Warranty-backed confidence*
- ✓ Easy, adjustable on-site assembly — cuts labor time*
- ✓ Schedule certainty — prefabricated supports keep you on time and on budget.*
- ✓ Specifier tools & resources*

Since
1982

Data centers are booming. We help keep rooftops **organized, code-compliant,** and your project **on time** and **on budget.**

MIRO DATA CENTER SOLUTIONS

Ramps

MIRO ramps provide safe, durable access over rooftop obstructions, with slip-resistant surfaces and non-penetrating bases that protect the membrane and simplify installation.

Stairs/Crossovers

MIRO crossovers create safe rooftop access over piping and equipment, using modular, easy-to-install designs that preserve the roof and meet code requirements.

Walkways

MIRO's modular walkway systems offer safe, clearly defined rooftop paths that protect the membrane and guide foot traffic around sensitive equipment and obstacles.

Service Platforms

MIRO can design and build even the most complex service platforms to provide secure, convenient access to rooftop or grade level equipment.

Cooling Tower Platforms

MIRO cooling tower platforms provide safe, durable access for maintenance around cooling towers. They're designed for heavy loads and are adaptable for rooftop or grade-level installations.

Mechanical Supports

MIRO Mechanical Supports are a quick and easy solution to elevating rooftop mechanical units of all sizes. They are easy to set up and adjust on-site.

Pipe Supports

MIRO's pipe supports are durable, adjustable solutions for rooftop piping—available in clevis, roller, and trapeze styles to fit any layout or configuration.

Large Cable Tray Racking

MIRO H-frame supports provide stable, easy-to-install rooftop support for cable tray and mechanical systems, with adjustable designs to fit any layout or load.

MIRO DATA CENTER SOLUTIONS

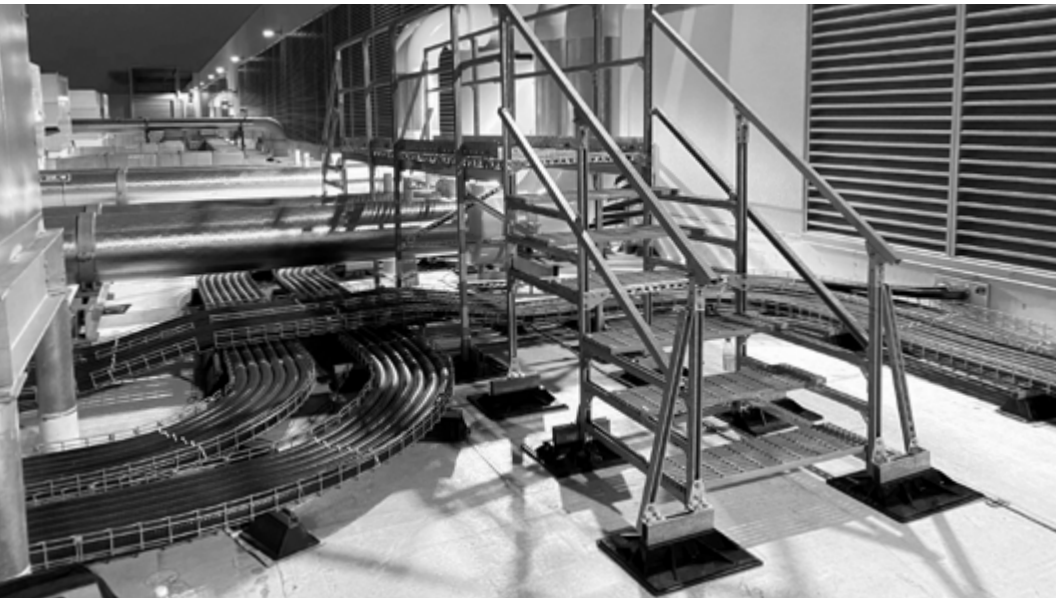

Conduit Supports

MIRO base strut supports provide durable rooftop support for conduit and cable trays, offering adjustable, reliable alignment that simplifies installation and protects the roof system.

Disconnect Supports

MIRO disconnect supports provide secure rooftop mounting for disconnects, patch panels, or boxes. These can be integrated into mechanical platforms or supplied as standalone units.

MIRO DATA CENTER SERVICES

ROOFTOP TAKE-OFFS

- Free* on-site rooftop system assessment.
- Remove the hassle and get accurate, timely quotes.
- Scan the QR code or call **(470) 805-1094**

*for qualifying projects

DESIGN CONSULTATION

- Expert guidance from rooftop design professionals at MIRO.
- In most cases, this is a free service.
- Scan the QR code or call **(800) 768-6978**

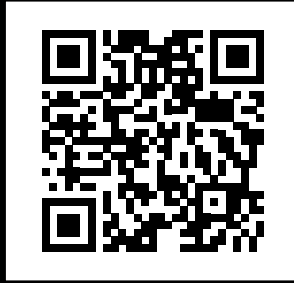

ENGINEERING SERVICES

- Engineering design, calculation package and P.E. stamp can be provided by MIRO's team of expert engineers.
- MIRO's engineers are experts in assessing your job requirements and finding the best and most cost-effective ways to meet those requirements.
